

PT. PACIFIC MARINE TECHNOLOGY

Integrated Marine Services

Delivering Reliable Marine Solutions

throughout Indonesia

Our Business Divisions

Marine Technical Services

- * Navigation & Communication Systems
- * Life Saving Appliances (LSA)
- * Fire Fighting Equipment (FFE)
- * Technical Repair & Troubleshooting
- * Spare Parts Supply
- * Dry Dock Management & Supervision

Underwater Services

- * Underwater Inspection (UWI)
- * In-Water Survey (IWS / UWILD)
- * Underwater Hull Cleaning
- * Propeller Polishing
- * Underwater Repair
- * Marine Salvage & Emergency Response

Logistics Solutions

- * Ship Spare Parts Delivery
- * Freight Forwarding
- * Customs Clearance
- * Heavy & Project Cargo Handling
- * Warehousing
- * Trucking Services

Ship Management

- * Technical Management
- * Planned Maintenance Systems (PMS)
- * Dry Dock Planning & Supervision
- * Procurement Management
- * Regulatory & Class Compliance
- * Fleet Technical Support

Company Overview

Pacific Marine Technology (PMT) is a leading provider of integrated marine solutions, delivering technical, underwater, ship management, and logistics services across Indonesia.

Trusted by ship owners, ship managers, offshore operators, government agencies, and industrial clients, PMT is committed to providing safe, reliable, and high-quality services.

Supported by experienced marine professionals, certified commercial divers, strategically located operational bases, and a strong logistics network, PMT delivers responsive, cost-effective solutions that minimize vessel downtime while serving as a single trusted partner for integrated marine services.

Vision

To become Indonesia's leading integrated maritime solutions provider by delivering safe, reliable, innovative, and client-focused services that create long-term value for the global maritime industry.

Mission

- Deliver safe, reliable, and high-quality marine solutions that meet international standards.
- Build long-term partnerships through professionalism, integrity, and responsive customer service.
- Continuously enhance our capabilities through innovation, technology, and the development of our people.
- Support the maritime industry with efficient and sustainable solutions that create lasting value for our clients.

MARINE TECHNICAL SERVICES

Marine Safety Equipment Services

Pacific Marine Technology provides comprehensive Marine Technical Services to support safe, reliable, and efficient vessel operations.

Backed by experienced marine engineers, technical specialists, and a nationwide network, we deliver responsive solutions that enhance vessel performance, regulatory compliance, and operational readiness.

Fire Fighting Equipment (FFE)

As an authorized service provider for NK Group and Nanjing Haining Marine Fire Fighting & Safety Equipment Co., Ltd., PMT offers comprehensive inspection, testing, maintenance, repair, and certification services for a wide range of onboard fire protection systems.

Our capabilities include:

- Annual & Five-Year Inspections
- Portable & Wheeled Fire Extinguishers
- CO₂ High & Low Pressure Systems
- Novec Fire Suppression Systems
- Water Mist Systems
- Dry Powder Systems
- Foam Systems & Helideck Foam Systems
- Fire Detection & Alarm Systems
- Gas Detection Systems
- Fire Hoses & Hydrants
- Hydraulic Pressure Testing
- Calibration Services

MARINE TECHNICAL SERVICES

Marine Safety Equipment Services

Life Saving Appliances (LSA)

PMT is an authorized and certified service provider for internationally recognized LSA manufacturers, delivering comprehensive maintenance, inspection, repair, testing, and certification services.

Our experienced technicians ensure that all lifesaving equipment remains fully operational and compliant with international safety regulations.

Our services include:

- Annual & Five-Year Inspections
- Liferaft Inspection & Servicing
- Lifeboat Maintenance & Repair
- Lifeboat Release & Retrieval System (LRRS)
- Davit & Winch Maintenance
- Load Testing
- SCBA Inspection & Servicing
- EEBD Inspection
- Breathing Air Quality Analysis
- Immersion & Chemical Protective Suits

Why PMT

- ✓ Authorized Service Provider
- ✓ Certified Technicians
- ✓ Genuine Spare Parts
- ✓ SOLAS Compliance
- ✓ Fast Nationwide Response

Marine Repair & Technical Services

Pacific Marine Technology provides integrated marine engineering services supported by experienced engineers and a nationwide logistics network.

From routine maintenance to emergency repairs, we deliver prompt, reliable solutions that minimize downtime and ensure timely spare parts and technical support across Indonesian ports.

Our Technical Services

- Machinery Repair & Overhaul
- Main Engine Support
- Auxiliary Engine Repairs
- Pump Maintenance
- Compressor Repairs
- Mechanical Overhaul

Electrical & Automation

- Electrical Troubleshooting
- Hydraulic Systems
- Motor Repairs
- Control System Support
- Preventive Maintenance

Riding Repair Teams

Our experienced riding squads are available to travel throughout Indonesia to perform onboard inspections, maintenance, and emergency repairs while minimizing vessel schedule disruptions.

Spare Parts Supply

Leveraging our international procurement network and nationwide logistics infrastructure, PMT supplies genuine spare parts efficiently to support both scheduled maintenance and urgent operational requirements.

Dry Dock Management & Technical Supervision

Pacific Marine Technology provides comprehensive dry dock management and technical supervision to ensure projects are completed safely, efficiently, on schedule, and within budget.

Our engineers coordinate every stage of the docking process while maintaining quality control and regulatory compliance.

Scope of Services

- Dry Dock Planning
- Pre-Docking Inspection
- Technical Specification Preparation
- Repair Planning
- Contractor Coordination
- Project Supervision
- Class Survey Coordination
- Budget Monitoring
- Progress Reporting
- Final Acceptance Inspection

Our Commitment

Every docking project is managed with a strong focus on safety, quality, schedule control, and cost efficiency to maximize vessel operational availability.

Ship Repair Services

Pacific Marine Technology provides comprehensive ship repair services, from routine maintenance to complex engineering projects.

Supported by experienced engineers, certified technicians, and trusted partners, we deliver quality repairs that minimize downtime and meet international safety standards.

Mechanical Repairs

- Main Engine Repairs
- Auxiliary Engine Overhaul
- Generator Overhaul
- Pump Maintenance
- Hydraulic Equipment

Structural Repairs

- Steel Renewal
- Hatch Cover Repairs
- Pipe Fabrication & Repair
- Stainless Steel Welding
- Aluminium Welding
- Duplex Steel Welding

Deck Equipment

- Crane Repairs
- Winch Overhaul
- Anchor Chain Renewal
- Mooring Equipment

Electrical & Automation

- Electrical Systems
- Instrumentation
- Automation Systems
- Electronic Repairs

Specialized Services

- Tank Cleaning
- On-site Machining
- Refrigeration Systems
- General Engine Room Repairs

Why PMT

- ✓ Experienced Engineers
- ✓ Rapid Mobilization
- ✓ Genuine Spare Parts
- ✓ Nationwide Support
- ✓ Reliable Quality
- ✓ Integrated Logistics

Underwater Services

Through its specialized underwater division, PT Penascop UWC Indonesia (PUWC), Pacific Marine Technology provides underwater inspection, maintenance, repair, and marine salvage services across Indonesia.

Supported by certified divers, Class-approved procedures, advanced equipment, and nationwide operational bases, we deliver safe, efficient, and cost-effective solutions with minimal vessel downtime.

Our Capabilities

- Underwater Inspection (UWI)
- In-Water Survey (IWS/UWILD)
- Hull Cleaning
- Propeller Polishing
- Underwater Repair
- Underwater Welding & Cutting
- Blanking & Cofferdam Installation
- Marine Salvage

Competitive Advantages

- Salvage License issued by the Indonesian Government
- Class Approved by BV, NK, KR and RINA
- One of Indonesia's largest underwater cleaning fleets
- Advanced Triple-Head Brush-Kart Technology
- Certified Commercial Divers
- Nationwide Operational Coverage
- Rapid Mobilization
- Comprehensive Inspection Reporting with HD Photos & Videos

Our Commitment

We are committed to delivering safe, environmentally responsible, and high-quality underwater services that enhance vessel performance, reduce fuel consumption, and extend asset life while minimizing operational interruption.

Advanced Underwater Equipment & Technology

Pacific Marine Technology invests in advanced underwater technology to improve safety, efficiency, and service quality.

Our modern equipment enables certified diving teams to perform underwater inspection, cleaning, repair, and maintenance with greater precision and reliability.

Equipment Highlights

Triple-Head Brush-Kart System

Our high-performance Brush-Kart system is capable of cleaning up to 3,600 m² per hour, delivering fast, effective, and environmentally responsible hull cleaning while reducing vessel downtime.

Propeller Polishing System

Specialized polishing equipment restores propeller efficiency, improves fuel economy, and enhances overall vessel performance.

Underwater Repair Equipment

Waterproof Welding Systems, Magnetic Repair Pads, Flexible Sealing Systems, Hydraulic Power Units

KMB 18 BAND MASK

AIR DIVING PANEL

CCTV CONTROL BOX

NYLON BRUSH

HARD SILICON BRUSH

SOFT INOX BRUSH

HARD INOX BRUSH

Technology That Delivers Results

Our investment in modern equipment, combined with experienced personnel and proven operating procedures, enables PMT to consistently deliver safe, efficient, and high-quality underwater services that meet the expectations of shipowners and Classification Societies worldwide.

Ship Spare Parts Delivery (Delivery on Board)

Pacific Marine Technology provides fast and reliable ship spare parts logistics throughout Indonesia.

Supported by our nationwide network and experienced logistics team, we ensure critical spare parts are delivered safely and on time to minimize vessel downtime.

Our Logistics Solutions

Delivery on Board (DOB)

Safe and reliable onboard delivery to vessels at ports, anchorages, and designated rendezvous points.

Customs Clearance

- Fast-track import clearance
- Import permit assistance
- Customs documentation
- Regulatory compliance

Domestic Distribution

- Air Freight
- Sea Freight
- Trucking
- Express Courier
- Hand Carry Service

Warehousing

- Secure storage facilities
- Inventory management
- Free storage (subject to company policy)

Service Advantages

- ✓ Rapid customs clearance
- ✓ Nationwide delivery network
- ✓ Emergency spare parts support
- ✓ Vessel schedule coordination
- ✓ End-to-end logistics management

Delivery on Board (DOB) Solutions

PMT specializes in time-critical Delivery on Board (DOB) services throughout Indonesian waters.

By integrating freight forwarding, customs clearance, domestic transportation, and marine logistics, we ensure spare parts reach vessels quickly and efficiently, including remote locations.

Cost-Effective Door-to-Door Services

Case 1. Vessel in Kotabaru

Day 1 - Sparepart from Busan to Incheon : 8 hours to Incheon by express courier.
Day 2 - Incheon to Jakarta : Next day before 12:00.
Day 2 - Jakarta to Banjarmasin : Domestic Air.
Day 3 - Banjarmasin to Kotabaru : Direct Trucking & On Board in the night.

Case 2. Vessel in Panjang in Holiday Season

Day 1 - Sparepart from Busan to Incheon : 8 hours to Incheon by express courier.
Day 2 - Incheon to Jakarta : Next day before 12:00.
Day 2 - Jakarta to Panjang : Domestic Air with person hand-carry.
Day 3 - On-board delivery at Panjang during the night.

Case 3. Vessel Parts from Japan to Sunda Strait, Indonesia

Day 1 - Air from Japan to Incheon T/S Process.
Day 2 - Arrive Jakarta, Transfer to Domestic Trucking.
Day 2 - Arrive Cigading Office, Communication with Vessel for RV Point.
Day 3 - Meet the vessel at the designated rendezvous point. deliver the spare parts.

Note: There will be limitation for cargo size and weight, kindly send inquiry to us in advance before proceeding.

Integrated Logistics Solutions

As a WCA Network member, Pacific Marine Technology provides reliable domestic and international logistics solutions for the maritime, offshore, industrial, and energy sectors.

Our experienced team manages transportation, customs compliance, project cargo, and nationwide distribution through trusted global and local partners.

Our Services

International Freight

- Ocean Freight (FCL & LCL)
- Air Freight
- Door-to-Door Delivery
- Customs Brokerage

Project Logistics

- Heavy Lift Cargo
- Oversized Cargo
- Industrial Equipment
- Factory Relocation
- Machinery Transportation

Domestic Logistics

- Trucking
- Inter-island Shipping
- Air Cargo
- Warehousing
- Distribution Management

Industries Served

- Shipping
- Offshore
- Oil & Gas
- Mining
- Manufacturing
- Construction

SHIP MANAGEMENT

Technical & Marine Management Services

Delivering Reliable, Safe, and Efficient Vessel Management

Pacific Marine Technology provides integrated Ship Management services that support safe, efficient, and compliant vessel operations.

Combining technical expertise, operational support, and HSEQ management, we help ship owners and operators enhance performance, maintain compliance, and optimize operating costs.

Our Ship Management Services

Technical Management

Comprehensive technical support to maintain vessel reliability, machinery performance, and asset integrity.

Services include:

- Planned Maintenance System (PMS)
- Technical Superintendence
- Machinery Performance Monitoring
- Preventive & Corrective Maintenance
- Dry Dock Planning & Supervision
- Technical Procurement & Spare Parts Management
- Repair Coordination
- Budget Planning & Cost Control

Marine Operations Support

Professional operational support to ensure smooth and efficient vessel operations.

Services include:

- Voyage Planning Support
- Port Call Coordination
- Operational Monitoring
- Fleet Performance Reporting
- Marine Documentation
- Emergency Operational Assistance
- Owner & Charterer Coordination

HSEQ Management

Promoting safe operations and full compliance with international maritime standards.

Services include:

- ISM Code Compliance
- ISPS Code Compliance
- Safety Inspection & Audits
- Risk Assessment
- Incident Investigation Support
- Safety Training
- Environmental Compliance
- Continuous Improvement Programs

Key Benefits

- ✓ Experienced Marine Professionals
- ✓ 24/7 Fleet Operational Support
- ✓ Nationwide Port Coverage
- ✓ Transparent Performance Reporting
- ✓ Cost-Effective Fleet Management
- ✓ Compliance with International Standards

OUR SHIP MANAGEMENT APPROACH

Delivering Value Through Structured Fleet Management

PMT follows a structured management process to ensure consistent technical oversight, operational support, and continuous performance improvement for every vessel.

1. Initial Consultation

Understanding vessel operational objectives, current condition, and owner requirements.

2. Vessel Technical Assessment

Comprehensive review of vessel condition, maintenance records, certification status, and compliance requirements.

3. Management Proposal

Preparation of a tailored ship management solution, including technical scope, reporting structure, and commercial terms.

4. Mobilization & Onboarding

Assignment of dedicated technical personnel, establishment of communication channels, and integration into PMT's management system.

5. Operational Management

Daily technical management, operational support, maintenance planning, and HSEQ implementation.

6. Performance Monitoring

Continuous monitoring of vessel performance, maintenance effectiveness, operational efficiency, and cost control.

7. Survey & Regulatory Coordination

Coordination with Classification Societies, Flag Administrations, and relevant authorities for statutory surveys and certification.

8. Continuous Improvement

Regular management reviews, performance reporting, and implementation of improvement initiatives to maximize vessel reliability and operational efficiency.

Industries We Support

PMT provides ship management services across a broad range of vessel types, including:

- Bulk Carriers
- Oil & Chemical Tankers
- Container Vessels
- General Cargo Vessels
- Offshore Support Vessels (OSV)
- Tug & Barge
- Passenger Vessels
- Coastal & Specialized Vessels

Why Choose PMT?

- ✓ Experienced Marine Superintendents and Technical Managers
- ✓ Proven Technical & Marine Management Expertise
- ✓ Integrated Technical, Underwater, and Logistics Support
- ✓ ISM & ISPS Compliance Management
- ✓ Transparent Reporting & Cost Control
- ✓ Responsive 24/7 Operational Support
- ✓ Nationwide Coverage Across Indonesian Ports and Anchorages
- ✓ Client-Focused Management

WHY CHOOSE PACIFIC MARINE TECHNOLOGY

Your Trusted Integrated Marine Solutions Partner

Pacific Marine Technology delivers reliable, efficient, and high-quality marine solutions for ship owners, ship managers, offshore operators, and industrial clients across Indonesia.

Combining technical expertise, nationwide coverage, advanced equipment, and responsive support, we help maximize operational efficiency while minimizing vessel downtime.

Why PMT?

Integrated Marine Solutions

From marine technical services and underwater operations to ship management, logistics, and offshore aviation support, PMT delivers multiple specialized services under one trusted partner.

Nationwide Operational Coverage

Strategically located offices, workshops, and operational teams enable rapid mobilization throughout Indonesia, including major ports, offshore terminals, anchorages, and remote operating areas.

Experienced Professionals

Our multidisciplinary team consists of experienced marine engineers, certified commercial divers, technical specialists, logistics professionals, and project coordinators dedicated to delivering safe and reliable services.

Quality & Compliance

PMT performs all services in accordance with applicable international regulations, manufacturers' recommendations, and Classification Society requirements while maintaining strict quality control procedures.

Rapid Response

We understand that time is critical in the maritime industry. Our responsive operational team provides prompt support for both scheduled maintenance and emergency service requirements.

Advanced Technology

PMT continuously invests in modern equipment and innovative technologies to improve safety, operational efficiency, service quality, and environmental responsibility.

Customer-Focused Approach

Every project is planned and executed with a strong commitment to safety, professionalism, transparency, and long-term customer satisfaction.

OUR COMMITMENT

Delivering Excellence Through Safety, Quality, and Innovation

At Pacific Marine Technology, every project is driven by operational excellence, professional integrity, and continuous improvement.

Through strong partnerships, technical expertise, and consistent service quality, we deliver practical, reliable solutions that create long-term value for the maritime industry.

Our Core Values

Safety First

Safety is our highest priority. We maintain strict compliance with occupational health, safety, and environmental standards while promoting a proactive safety culture throughout every operation.

Professionalism

We uphold the highest standards of technical competence, ethical conduct, accountability, and customer service in every aspect of our business.

Reliability

Clients rely on us because we consistently deliver responsive, dependable, and high-quality services that meet project schedules and operational requirements.

Integrity

We conduct our business with honesty, transparency, fairness, and respect, building long-term relationships founded on mutual trust.

Innovation

We continuously improve our capabilities by investing in modern technology, developing our people, and adopting innovative solutions that enhance operational efficiency and service quality.

Customer Success

Our success is measured by the success of our clients. We are committed to becoming a trusted long-term partner by providing practical, cost-effective, and value-driven marine solutions.

Our Commitment

To be the preferred marine solutions partner by delivering safe, reliable, innovative, and customer-focused services that exceed expectations while supporting the sustainable growth of the maritime industry.

Trusted by Industry Leaders

Pacific Marine Technology proudly supports ship owners, ship managers, offshore operators, government agencies, and industrial clients through trusted partnerships and reliable marine solutions.
